## MIT AI & Education Summit

The second **MIT AI & Education Summit**, hosted by the **MIT RAISE Initiative** July 16-18, 2025, is where we explore the pivotal role of AI in education and responsible AI use.

The event will cover various themes, including AI literacy, AI-powered tools for education, AI for the global good, and AI-supported personalized learning.

Through talks by world experts in AI education, hands-on workshops, a Climate Challenge, paper presentations, educational panels, and networking events, the Summit aims to excite educators, students, and professionals to embrace AI and collaborate on future initiatives to harness its potential for positive impact in education and beyond. This year we will offer workshops in Portuguese and Spanish sponsored by Google.

As AI continues to evolve, we aim to utilize this summit to reaffirm the need for ongoing dialogue, research, and policy development to ensure its benefits extend to students of all ages and educators objectively.

Last year, along with our 350 attendees, we delved into the immense potential of artificial intelligence to reshape education by emphasizing ethical practices, collaboration, and global perspective, setting the stage for sustained innovation in AI-driven education.

As a sponsor, you can be a part of this open event as together we guide this AI generation along their journey. Full sponsor benefits are outlined on the next page. Among others they include:

- Complementary Summit attendance
- A keynote speaking opportunity
- A booth to showcase your organization
- Logo placement on our website, social media, T-shirts, tote bags, and more.

*For inquiries about sponsorships, please contact Marisol Diaz at [marisold@mit.edu](mailto:marisold@mit.edu).*
